Strong leadership sets students and staff up for success

A Message from the Superintendent

Chinook's Edge ensures effective leadership structures are in place at every level of our school division, because we know this priority creates success in our school communities. Our teachers have the most direct impact on student success, so we make certain there are a number of opportunities for these leaders to collaborate, share best practices and work toward meaningful improvement in their classrooms. Guiding them are our skilled school leadership teams of Principals and Vice Principals, who themselves share a strong network of collaboration and support.

Our Central Office Leadership Team is frequently called upon to share details of our approach with other learning professionals, because these methods of advancing growth and success have proven to be highly successful. Our school division has exceptional leaders who want to continue advancing the strategies that support growth at every staff level. Leading each initiative is our Board of Education, whose vision and openness allows our division to continue moving forward with quality learning that impacts every student in our care.
