

READINESS FOR THE SKILLED TRADES LEVEL 2

WLD 2167

FABRICATION CREDITS

Applications due September 9

PROGRAM DESCRIPTION

Students will further their understanding of safety and welding practices utilizing oxy-acetylene, Plasma Arc Cutting (PAC), Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW), and Gas Tungsten Arc Welding (GTAW) processes used widely by industry today

Student Eligibility & Prerequisites

This program is available to all CESD students:

Prerequisite- Readiness for the Skilled Trades Level 1

1. Who are excited about learning and sharing their ideas
2. Who are in grades 10, 11 or 12 and who have an interest in learning about the Trades.
3. Who are able to commit to the duration of the program, participating in learning activities and completing assignments and tests as scheduled, and who can meet regularly with the Facilitating Teacher to communicate about progress in the course and to identify strategies for success.

Course Outline

1. Adhere to safe work practices required in the welding environment.
2. Perform oxy-acetylene welding for fabrication or repair purposes.
3. Perform plasma arc cutting (PAC)
4. Perform shielded metal arc welding (GMAW)
5. Perform introductory gas tungsten arc welding (GTAW)

ADDITIONAL INFORMATION

- Students' marks will appear on their high school transcript as well as their post-secondary transcript.
- Students should have the support and guidance of their parents if they are to pursue online dual credit opportunities.
- Deadlines Matter! Students must be able to communicate with the instructor and the key school contact when alternative arrangements need to be made.
- The student understands the expectations of the dual credit program

Cost

Tuition - \$0
(savings of approx \$500)

Textbooks and materials - \$100-250

5 FAB HS credits
