

# PCSS Post Secondary Spotlight

## Equine Care and Management Certificate

Turn your passion for horses into an exciting and rewarding career in the equine sector.

Through this program, you will learn foundational knowledge and skills of equine behaviour and handling, management of horses and horse herds, how to respond when first aid is required and how to communicate effectively within the equine industry.

For those interested in riding, you will have the opportunity to select riding courses for your electives. Should you wish to participate in the riding component, you will be required to bring your own horse(s) and are responsible for their care on-campus. Further, you would be responsible for all applicable horse boarding expenses.

### Work-Integrated Learning

You will have the option to complete a Directed Field Study industry placement to gain practical experience, while developing your skills in equine care and management.

### Admission Requirements

- 50% or better in English Language Arts 30-1 or 30-2
- 50% or better in Math 20-1 or 20-2
- 50% or better in one of Biology 20, Chemistry 20, or Science 20
- Meet the English Language Proficiency Requirement

Length: One Year

Delivery Method: Blended

Program Intake: Fall Intake (September start)

### Horse Boarding Information

Olds College's horse boarding services are available to students and include hay, shavings, shelter and bedding.
