Jumpstart Chromebook Course

Your child has the opportunity to earn high school **credits** and a **free chromebook** for them to keep. Learn more about it here: http://jumpstart.cesdhub.com

Grade 9 students will automatically be enrolled in the course. It is an optional course still.
Grade 10 or 11 can register themself until June 12 by going to http://jumpstart.cesdhub.com. They will select 6 courses just like we've done in years past. If your child took the course last year and received their credits and chromebook they can not take it again this year. This year, Jumpstart will be delivered through Google Classroom.

ALL STUDENTS who are taking a Jumpstart course must view the introductory video; this video comprises the first hour of instruction for Jumpstart, and its viewing is mandatory for every student. This video contains all the details they need to know to be a successful participant in Jumpstart.

Jumpstart will begin on June 13. All grade 9 students will have access to the introductory video through Google Classroom prior to June 13. On June 13, the learning content will be populated into the INF 1030 Google Classrooms for students to begin work when it is time for them to do so.

The deadline to complete Jumpstart is July 24 and this deadline is set by Alberta Education.

Michelle Baragar is the teacher for this course for the entire school division and can answer all your questions at mbaragar@cesd73.ca

Any other questions? Please call the school and we will help: 403-886-8604.
